

AREAS OF APPLICATION

- Warehouses
- Logistic halls
- Production facilities
- Indoor sport hall

PRODUCT BENEFITS

- The next generation high quality reflector optic
- Ensuring glare reduction and excellent lighting performance for different applications
- The optic system features a honeycomb reflector baffle specially designed to reduce the amount of glaring without the use of traditional reflectors
- High Efficiency up to 130 lm/W

PRODUCT FEATURES

- Anti-glare design, comfortable for eyes
- Smart plug & play system without wiring for build-in sensor
- IP65 grade protection
- 5 Years warranty
- Energy efficiency class A+ & A++

TECHNICAL DATA

Electrical data

Rated power	150 W
Operating voltage	AC100~277V
Operating frequency	47~63Hz
Power factor	>0.95

Photometrical data

Color temperature	2700 - 6500K
Luminous flux (lm)	19500 ± 1500
Color rendering index Ra	>80

Light Technical Data

Beam angle	90°
------------	-----

Dimensions

Height (mm)	190
Diameter (mm)	320

Temperature & operating conditions

Ambient Temperature	-30~+55°C
---------------------	-----------

General information

Mounting type	Surface mounted
LED type	SMD LED
Lifespan	50000 hours

SPECIFICATION				
MODEL	LUMINOUS EFFICIENCY	POWER	IP RATING	DIMMABLE
CLXHB 09LG-150 W	130 ±10	150 W	65	YES
